PROJECTS

Adventure Book | [Repo](#) | [Deployed](#)

- Adventure Book is a MERN Stack web application for travelers to use to get more personalized recommendations from real, like-minded people who have experienced the places everyone wants to go and the activities they want to do.
- This full stack application was created with a simple layout for a better user experience. If a user sees a post they like, they can save it for later reference, and it will stay with them on their dashboard. If they have traveled somewhere they have the option to add a post for others to use for their next trip.
- Tools/Languages: ReactJS, NodeJS, JWT, Express, Tailwind CSS, Font Awesome, daisyUI, Apollo Client, React Router, animeJS, Mongoose, Concurrently, dotenv, Nodemon, React Image Carousel, Bcrypt, Apollo Server, JavaScript, HTML5, CSS, GraphQL, BingMaps, Cloudinary

Git Productive | [Repo](#) | [Deployed](#)

- Git Productive is a full stack web development application designed for the use of developers to have a space for project, time, and data management.
- This web applications anticipated use is for developers to manage their time, while reminding them when it is a good time to get up and take a break, with recommended ways to move their body. If while working they come across code they want to save because it will deem itself useful, the user has the option to save that piece of code on the code highlight section.
- Tools/Languages: Handlebars, CSS, JavaScript, daisyUI, Tailwind CSS, Node.js, MySQL, Anime.js, Sequelize, Bcrypt, Express, Express Session, Connect Session Sequelize, dotenv

PetHub | [Repo](#) | [Deployed](#)

- Pethub is a front-end based web application designed for anyone interested in responsibly adopting a pet, or a place to locate local or global charities to help animals in need.
- This web application was built with the third party API's, PetFinder API, Charity Navigator API, and The Dog API to outsource information on charities, specific dog information, and adoptions in all areas to be able to get specific information from any area.
- Tools/Languages: HTML, CSS, JavaScript, jQuery, Web APIs, Tailwind CSS, AniJS

WORK EXPERIENCE

Army National Guard

September 2018 - Present

Medical Officer

Reno, NV

- Efficiently lead four soldiers in a medical squad consisting of two officers and two enlisted soldiers, responsible for maintaining and enforcing 100% accountability of the squad personnel and equipment.
- Directly assist the Platoon Leader in developing and implementing monthly trainings, providing technical support in administrative tasks, and standing in as the Platoon Leader, watching over 40 soldiers in the absence of the Platoon Leader.
- Supervises individual and squad-level training and mentors subordinates to ensure that they are properly prepared for medical operations.

Nektar Therapeutics

May 2021 – March 2022

Reception Administrative Assistant

San Francisco, CA

- Worked collaboratively with an immediate team of four to produce a safe and healthy workplace for all employees and ensure all personnel returning to work were completed safely.
- Demonstrated exceptional communication and customer service skills while overseeing front office administrative duties. Earned the Nektar Star Award in October 2021 for making a significant impact on the work production of the research team and efficiency in supporting the team to transition back to on-site activities.
- Completed First Aid, Emergency Response, and HAZWOPER trainings to establish safety throughout the building, leading the roll call section for all emergency evacuations.

EDUCATION

UC Berkeley Extension School, Berkeley, CA

June 2022

Certificate in Full Stack Web Development

University Nevada, Reno

May 2020

Bachelor of Science
